Education

M.S. Statistics

The University of Texas at Austin, 2021

B.S. Mathematics

Texas A&M University, 2019

Profile

Data scientist working on clinical risk models and experimentation. I turn messy operational data into models that people actually use, and I like explaining the results to non-technical teams.

Experience

Data Scientist

Brightwave Health, Austin, TX | 07/2023 - present

- Built patient-readmission models in Python (scikit-learn, XGBoost) that reduced 30-day readmissions by 8% across 12 hospitals.
- Productionized feature pipelines with Apache Airflow and Spark on AWS.
- Designed and analyzed A/B tests for care-outreach programs and presented results to clinical leadership every quarter.
- Prototyped a PyTorch model for triaging discharge notes.

Data Analyst

Cobalt Retail, Dallas, TX | 01/2022 - 06/2023

- Owned weekly sales forecasting in SQL and pandas for 400 stores.
- Built Tableau dashboards used by 60 regional managers to plan staffing.
- Automated inventory anomaly reports, saving the planning team ten hours a week.
